

ACCESS CONTROL PLUS

Access Control Plus —an integrated solution from Savance in collaboration with leading access control providers— extends the use of a new or existing access control system. The result is a multi-purpose solution that not only regulates and protects employees and assets, but also automates business processes for time-tracking and payroll; emergency preparedness; staff communication; and more.

Whether you need to protect critical evidence; your business is hazardous; or you need to track an employee's whereabouts for billing purposes, an extension of a new or existing access control solution is the answer.

What makes Savance EIOBoard's integrated Access Control Plus solution different from a regular access control system is that it is a multi-purpose solution that can be customized to the exact needs of your business. For example, with just one swipe of a badge, the system is able to do several things, for example:

- Permit access to secure areas;
- Clock in hourly employees;
- Alert coworkers of your whereabouts;
- Keep a record of employees, visitors, and contractors for emergency preparedness.

Thanks to its multi-functional abilities, Access Control Plus not only restricts and permits access, but can also help automate business functions like payroll, client billing, and customer service. Easily extend use further with visitor management features, as well as tools for emergency mustering.

SELECT BENEFITS

- Regulate and protect employees and assets.
- Easily permit or restrict access to secure areas.
- Be able to track employees as they move throughout your facilities.
- Integrate with payroll, emergency mustering, visitor management, and more.
- Fully scalable and customizable to your exact needs.

Drew Emory

DEPT. OF PUBLIC SAFETY, STATE OF VT

“ The EIOBoard system worked so well for Forensics, we've implemented it into the rest of the [Department of Public Safety]. We now have a secure way of protecting critical evidence.

David Sherrard

AMERICAN PACKAGING CORPORATION

“ Safety, efficiency, and financial sense drive most good business solutions. This solution meets all these criteria.
