

ELECTRONIC WHITEBOARD

Tricia Long

CITY OF WHEAT RIDGE, CO

“ We needed to get away from the magnetic board, and EIOBoard is a stable, and mature product.

Steve Young

JUDSON INDEPENDENT SCHOOL DISTRICT

“ It stops that question, ‘Where is this person?’ It helps to make that decision about how to follow up. It really enhances communication throughout our organization.

Savance EIOBoard Electronic Whiteboard is a large digital signage solution designed to display critical information viewable at a glance. Use for employee status updates, company announcements, resource tracking, and more. With the touch screen option, a static status board turns into an interactive whiteboard replacement for easy updates.

Get rid of that old wall-mounted, outdated magnetic whiteboard, which is only viewable in one physical location, and upgrade to a universal, real-time electronic whiteboard for your entire office or building.

Savance EIOBoard Electronic Whiteboard gives employees lots of options and flexibility for updating their status, and allows them to view cell phone numbers, returning date and times, email addresses, extensions, and other data. You can also leave full-text comments, send and receive notes, and much more.

Post updates via a computer, a touch screen kiosk, an Internet browser, Microsoft Outlook, or a cell phone, and updates will display on one or several wall-mountable electronic whiteboards. Also, because the solution is electronic, it will work not only for in-office personnel, but for people working remotely, from home, or in the field.

Electronic Whiteboard is fully configurable, and scalable to any size business. It will be custom-designed to fit your company branding and your specific needs to a T.

SELECT BENEFITS

- Eliminate old school methods, like magnetic status boards, and simplify your work life.
- Screens available from 10” to 70” for varied applications.
- Plug and play – simply mount and use.
- Show mixed content, including employee statuses, contact info, and company announcements.
- Update from anywhere using a kiosk, an Internet browser, or your smartphone.
