

## Integrated Solutions for Access Control & Business Automation

— Customizable & Fully Scalable

### Badge Printing

Completely configurable application to quickly and easily design, print, and assign badges or name tags. Limitless WYSIWYG design.

### Electronic In/Out Board

Easy and flexible electronic in/out board, allowing employees to sign in and out of the office as they come and go.

### Emergency Mustering

Affordable and easy-to-use emergency management solution, customizable to suit any business.

### Large Screen Display

Large-screen digital signage solution designed to display critical information viewable at a glance.

### Time & Attendance

Electronic timesheet solution that automates data collection, and processes payroll quickly and accurately.

### Visitor Management

Customizable and easy-to-use electronic visitor management solution that streamlines the visitor process for any business.

## How Does It Integrate with Open Options?

User contact details are synchronized from Open Options into Savance EIOBoard, and badges, pictures, and other fields can be updated and printed from any number of templates to any Windows printer. After printing, badges can be quickly assigned and activated in Open Options.

When staff come and go through the doors, their status is automatically updated to “In” or “Out” for communication or accountability purposes.

Savance automatically keeps track of people as they pass in and out of a door, and uses a mobile tablet to 1) quickly account for people at muster stations; 2) identify missing staff, visitors, and contractors; and 3) pinpoint a missing person’s last location.

Display the in/out status of staff or visitors on large format display boards (32"-55"+), utilizing information from door swipes or from updates using a mobile device, app, web browser, or kiosk.

As credentials are swiped at a door, or at a dedicated kiosk using a badge, staff attendance is automatically tracked, and can be exported to Paychex, ADP, or to the company’s own HR system.

Revolving temporary visitor badges can be assigned, allowing for visitors to be tracked for audit purposes or emergency mustering. Badges can also be printed and dynamically activated to grant access to certain security groups for contractors.
