

# EMERGENCY MUSTERING

The Savance EIOBoard Emergency Mustering solution was designed with business emergency situations in mind. Using a Windows tablet or laptop device, a designated safety officer has a simple, up-to-the-minute tool for roll call during safety drills or emergency evacuations. It is an affordable and easy-to-use solution that can be customized to suit the needs of any business or organization.

The Occupational Safety & Health Administration requires all organizations to have a plan for workplace emergencies & evacuations. Are you able to account for all employees in the event of a catastrophic event?

Many companies use personnel paper logs to take roll call during an evacuation. Would you stake your life on a manually updated paper log? What if staff comes and goes out of an alternative door? What about guests, delivery drivers, and contractors?

In a true emergency, lives are at stake. Each and every person must be accounted for quickly and accurately. The EIOBoard emergency mustering system is designed to enable you to do so with 100% accuracy. This is critical to enable firefighters and EMTs to do their job effectively.

EIOBoard Emergency Mustering lists everyone that was signed in or out at the moment of an emergency. You will know who's out to lunch or on vacation, who was at their workstation, and whether there were any guests or contractors in the building. If an emergency occurs, you'll be able to pinpoint a person's last known location.

## SELECT BENEFITS

- No more paper logs for emergency mustering.
- Real-time data on everyone in the building, including contractors & guests.
- Filter employees based on status (e.g. in the office, on vacation, off site).
- View an employee's contact information and last known location (building, floor, room, etc.).
- Provide employees with *100% Peace of Mind.*

### David Sherrard

AMERICAN PACKAGING CORPORATION

“ It is peace of mind to know that everyone can be quickly accounted for in an emergency, allowing for a more effective response.

### Martin Rowland

SHERRITT INTERNATIONAL MINES

“ It has really hit the nail on the head. It has accomplished everything we'd hoped for.
