

LIFEBOAT ACCOUNTABILITY

David Sherrard

AMERICAN PACKAGING CORPORATION

“ It is peace of mind to know that everyone can be quickly accounted for in an emergency, allowing for a more effective response.

Martin Rowland

SHERRITT INTERNATIONAL MINES

“ It has really hit the nail on the head. It has accomplished everything we'd hoped for.

Savance EIOBoard Lifeboat Accountability was developed with oil field, shipboard, and other offshore emergencies in mind, allowing personnel and visitors to respond to an emergency situation in the simplest and most effective manner. The EIOBoard system will provide the structure to prevent critical steps from being overlooked in case of an evacuation due to e.g. oil spills, fires, explosions, or natural disasters.

If you work offshore, having a comprehensive emergency response plan is critical. The goal is to minimize the risk of human life and end preventable loss of life at sea. Coordination and consistency of safety procedures is crucial.

Savance EIOBoard Lifeboat Accountability is an offshore emergency management and preparedness software solution used by an administrator to pre-register people; assign lifeboats, badges, and barcodes; and input contact information. Each lifeboat is equipped with fixed hardware for a quick and easy self-service check-in process that employees will have no problems familiarizing themselves with.

If an emergency situation occurs that requires lifeboat evacuation, employees and guests easily check in to a lifeboat by using either a badge or barcode scanner, or a touchscreen device. Additionally, thanks to EIOBoard's simple and straightforward color-coded configuration, communication issues due to e.g. different languages spoken by the shipboard or oil rig personnel, can easily be avoided.

SELECT BENEFITS

- Instant sign-in at each lifeboat by leveraging card, barcode, and touch screen technology.
- Allows staff to easily plan for quick and effective evacuation.
- Easily track the status of each and every staff member or guest, for complete visibility at any time.
- Available during power and network outages.
- Provide employees with *100% Peace of Mind.*
